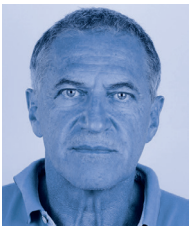
WELCOME

Dear friends,

My team and I are delighted to welcome you to this course organised by the Alps Surgery Institute and DePuy Synthes.
Shoulder surgery is a very entertaining discipline requiring skill, creativity and rigor. There are always new things to discover and improvements to be made. We here in Annecy are motivated by a passion for achieving these goals, a passion that I know is nothing if not shared!!
So thank you to a great international faculty, thank you to my team, and thank you to DePuy Synthes, for sharing their passion for shoulders & their expertise with us here. We hope that we can pass on some of both of these to you over the next few days.
We will do our best to make these days enjoyable and beneficial, for your practice and for your patients.

Amitiés,



Laurent LAFOSSE, MD
